Unleashing the Transformative Power of Books

June 11th
10 am - 10:45 am
Socius Bakery & Cafe
Shakhbout City, Abu Dhabi

Elsa Marta Soares
Speech and Language Therapist
Ph.D. in Child's Studies
Specialized in Early Childhood Intervention

Books hold within their pages a world of wonders, ready to transport children to unimaginable realms and ignite their spirits of curiosity and exploration.

During this interactive session, we will delve deep into the profound impact that books can have on your child's holistic growth.

1. Through books, children unlock the beauty of language, expanding their vocabulary, enhancing linguistic fluency, and fostering effective communication skills.
2. Books serve as invaluable reservoirs of knowledge, empowering young minds with a thirst for learning.
3. Uncover the transformative potential of books in enhancing your child's cognitive abilities, nurturing critical thinking skills, and fostering a lifelong love of learning.

We encourage you to bring along the treasured books from your own home, allowing us to embark on a remarkable journey together.

Together, we will unlock the boundless potential within your child's imagination and nurture their growth into extraordinary individuals.
